### Important Questions

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
<th>Why This Matters:</th>
</tr>
</thead>
</table>
| What is the overall **deductible**?                                      | **In-Network:** $1,500/ per person $3,000/ per family  
**Out-of-Network:** $3,000/ per person $6,000/ per family | Generally, you must pay all of the costs from providers up to the **deductible**  
amount before this **plan** begins to pay. If you have other family member on the  
policy, the overall family **deductible** must be met before the **plan** begins to pay. |
| Are there services covered before you meet your **deductible**?          | Yes. **Most preventive care services in-network.**                      | This **plan** covers some items and services even if you haven’t yet met the **deductible**  
amount. But a copayment or **coinsurance** may apply. For example, this **plan**  
covers certain preventive services without cost-sharing and before you meet your  
**deductible.** See a list of covered preventive services at [https://www.healthcare.gov/coverage/preventive-care-benefits/](https://www.healthcare.gov/coverage/preventive-care-benefits/). |
| Are there other **deductibles** for specific services?                   | No.                                                                    | You don’t have to meet deductibles for specific services.                          |
| What is the **out-of-pocket limit** for this **plan**?                   | **In-Network:** $3,000/ per person $6,000/ per family  
**Out-of-Network:** $6,000/ per person $12,000/ per family | The **out-of-pocket limit** is the most you could pay in a year for covered services.  
If you have other family members in this plan, the overall family **out-of-pocket**  
limit must be met.                                                                     |
| What is not included in the **out-of-pocket limit**?                     | Premiums; penalties; your costs for Supplemental Benefits; services not  
covered; balance-billed charges.                                            | Even though you pay these expenses, they don’t count toward the **out–of–pocket**  
limit.ceptions, they don’t count toward the out–of–pocket limit. |
| Will you pay less if you use a **network provider**?                    | Yes. See [www.providencethealthplan.com/phs-employees](http://www.providencethealthplan.com/phs-employees)  
for a list of network providers.                                               | This **plan** uses a provider network. You will pay less if you use a provider in the  
**plan’s** network. You will pay the most if you use an out-of-network provider, and  
you might receive a bill from a provider for the difference between the provider’s  
charge and what your **plan** pays (a balance bill). Be aware, your network provider  
might use an out-of-network provider for some services (such as lab work).  
Check with your provider before you get services.                                |
| Do you need a **referral** to see a **specialist**?                      | No.                                                                    | You can see the specialist you choose without a referral.                          |
All **copayment** and **coinsurance** costs shown in this chart are after your **deductible** has been met, if a **deductible** applies.

About these Coverage Examples:

This is not a cost estimator. Treatments shown are just examples of how this plan might cover medical care. Your actual costs will be different depending on the actual care you receive, the prices your providers charge, and many other factors. Focus on the cost sharing amounts (deductibles, copayments and coinsurance) and excluded services under the plan. Use this information to compare the portion of costs you might pay under different health plans. Please note these coverage examples are based on self-only coverage.
