

## Providence Health Plan 2018 Individual & Family Plan Rates

Plan availability varies by county. To determine the premium for you and your family, go to the section below for the county in which you live and choose the plan that fits your needs. Then use the ages for each person to be covered to determine the rate. Please note that if any person aged 21 and older is a tobacco user, you will need to use the Tobacco user rates for that person. Add the premium amounts for each family member to determine your total. If you're covering more than three children 20 years of age and younger, only add the premiums for your first three children.
